

I (Rose) drew out  
the school  
timetable to help  
mummy plan  
lessons

- Getting familiar with coins and Jeff grouping lego

I learned  
to play  
Backga  
mmon  
and  
won!!

# We found a dead shrew

- We dissected it and identified the heart, lungs, kidneys, intestines, penis and brain.

We have been working hard to help  
Mum and Dad in the garden

We went on an adventure, exploring the caves at High Tor and we found a beautiful bird's nest and mineral deposits.

The other day in  
the sunshine  
Rose's hair went  
fluffy, this is  
because of  
static electricity.  
The charged  
particles can  
zap you too!

Daddy's hair started to look quite scruffy, so I shaved it for him.

We built a den in a secret location  
Shhhh.....

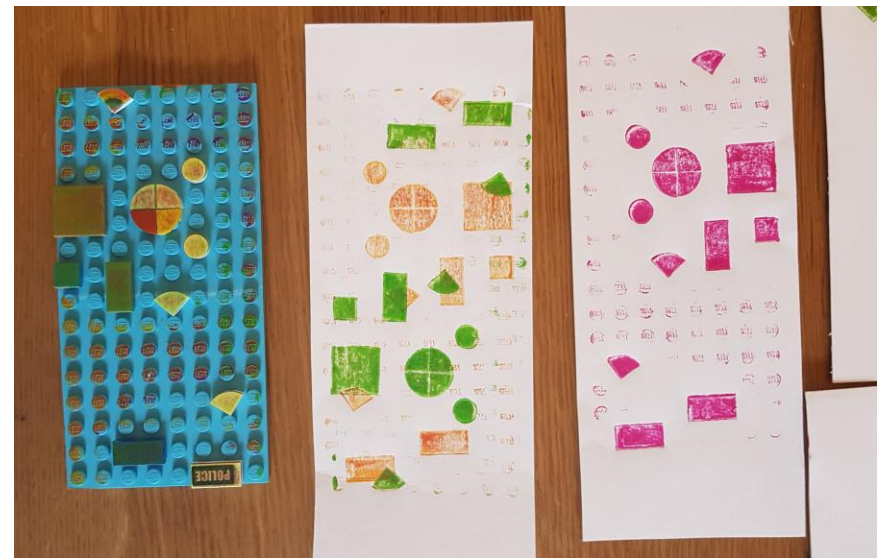

We are lucky to have a garden and we love it. Daddy made a Zip line, a slack line and even mowed a cycle track on the lawn to keep us active!

We used flat lego pieces to print with and we learned to use Mummy's printing press

We made an exploding Volcano

# Rainbows and Resting
